Zinc Sulfate Monohydrate Powder

ANIMAL NUTRITION

Zinc sulfate is used in animal feed for cattle, pork, chicken, turkey, fish, other farm animals and house pets.

Zinc sulfate is vital to plants, as it is involved in the production of growth hormones and chlorophyll, as well as in the respiration process and synthesis of carbohydrates. Therefore, zinc sulfate is a great product to replenish zinc content of depleted harvest lands which will guarantee the supply of this essential element to crops produced in them.
